

## TESTIMONIAL

I have been working with Marius for over a year now and I can honestly say that it has been a positive experience.

He is very innovative, and his problem solving skills are brilliant.

Marius tends to get involved in every aspect of a project and takes initiative when least expected. I would rate him as a broadminded technological expert, with a good work ethic and a good sense of humour.

We have travelled to Africa and done a major implementation that was very successful. He is reliable, knowledgeable and always ready to assist.

Marius has made himself the project owner. He does all testing, implementations, implementation planning, upgrades and in-country training. I do not think that the project could have been so successful without him.
